Product Information :

Saru shielding offers effective customized solutions for shielding of radioactive or contaminated waste flowing through waste/soil pipelines.

SARU Shielding manufactures & supplies various types of Pipe shielding/hemi spherical lead bricks that are made to customer specification depending upon the customers shielding application.

Our pipe shielding and complete solutions are customized for various configurations of pipe layout and pipe ancillaries (Valves).

Applications:

- Shield lines for instrumentation (example-lines flowing from cyclotron to hot cell).
- Shielding of piping's, flues & gutters.
- Shielding of Valves & other piping accessories.
